HEALTH DEPT.

Dear Sir;

In regard to your letter of Sept. 25, 1969, on the completion of Engineering plans for the South Dayton Dump, we are not going to operate a solid waste disposal site in the terms of burning paper, wood and other unburned rubbish and wastes.

As of January 1, 1970, we will only accept dirt, concrete, fly ash, brick, incenerator ash or other unorganic material which the Board of Health will approve.

I have checked as to the cost of engineering plans and have estimated costs of approximately \$4,500.00. This cost plus a \$500.00 permit to the Board of Health would be an investment of \$5,000.00.

I did invest \$500.00 for a permit in 1969 but as I stated with our operation it was only a donation as we did not plan on operating a Land Fill.

We would request at this time that the requirement for engineering plans be dropped for the remainder Of 1969.

Sincerely yours,

Alcine S. Grillot

★ Alcine had called and made this statement. I asked him to submit this in writing. I believe it would be appropriate to allow the request, stipulating if he changes his mind plans must be submitted to application.
